

Demystifying Machine Learning

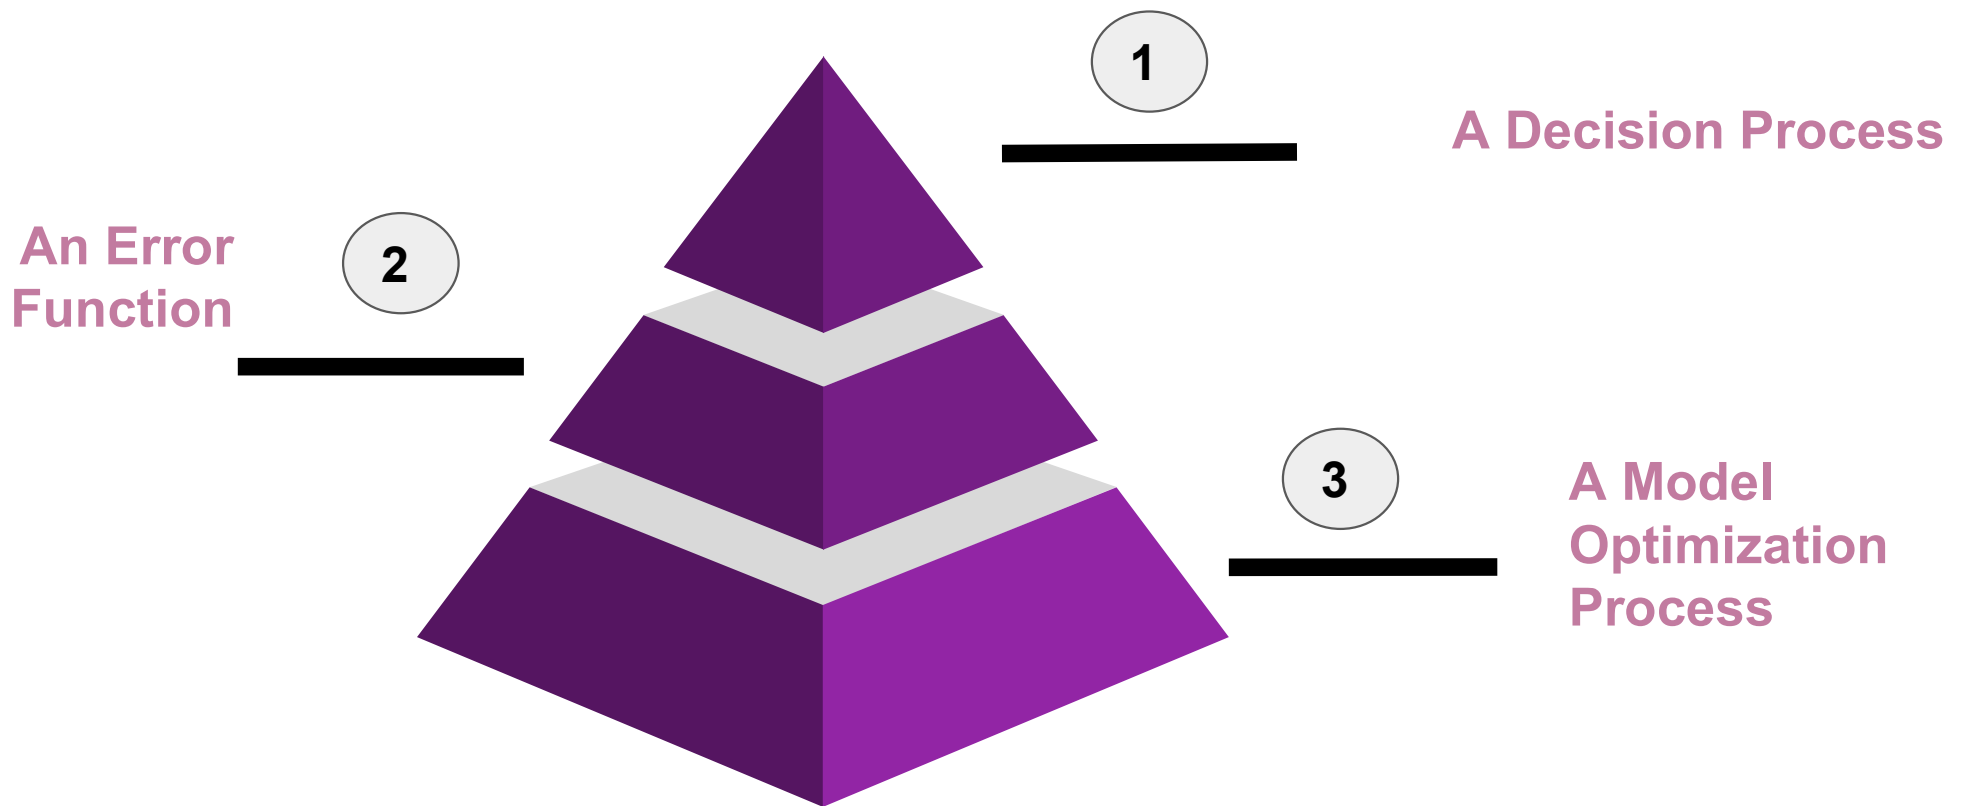

“Machine Learning is the field of study that gives computers the ability to learn without explicitly programmed.”

- **Learn from experiences**
- **Predictive analysis**
- **Building mathematical models and making predictions using historical data or information.**

Arthur Lee Samuel

How does Machine Learning work?

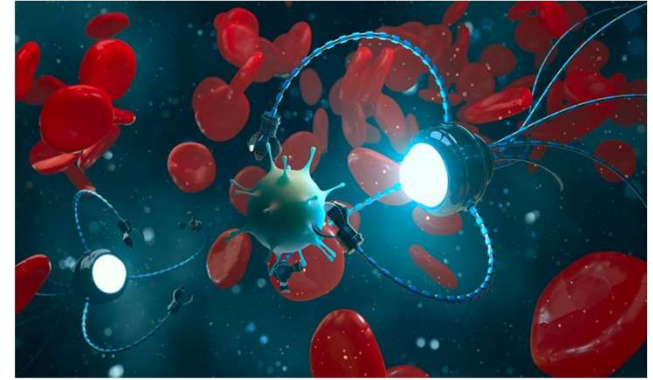

Makes three things better

Reduce time to programming

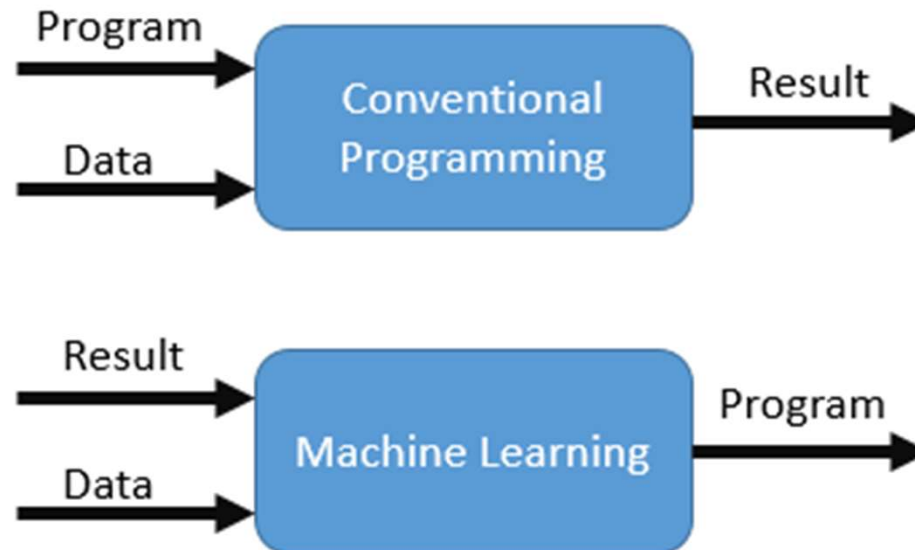

Customize and scale your product

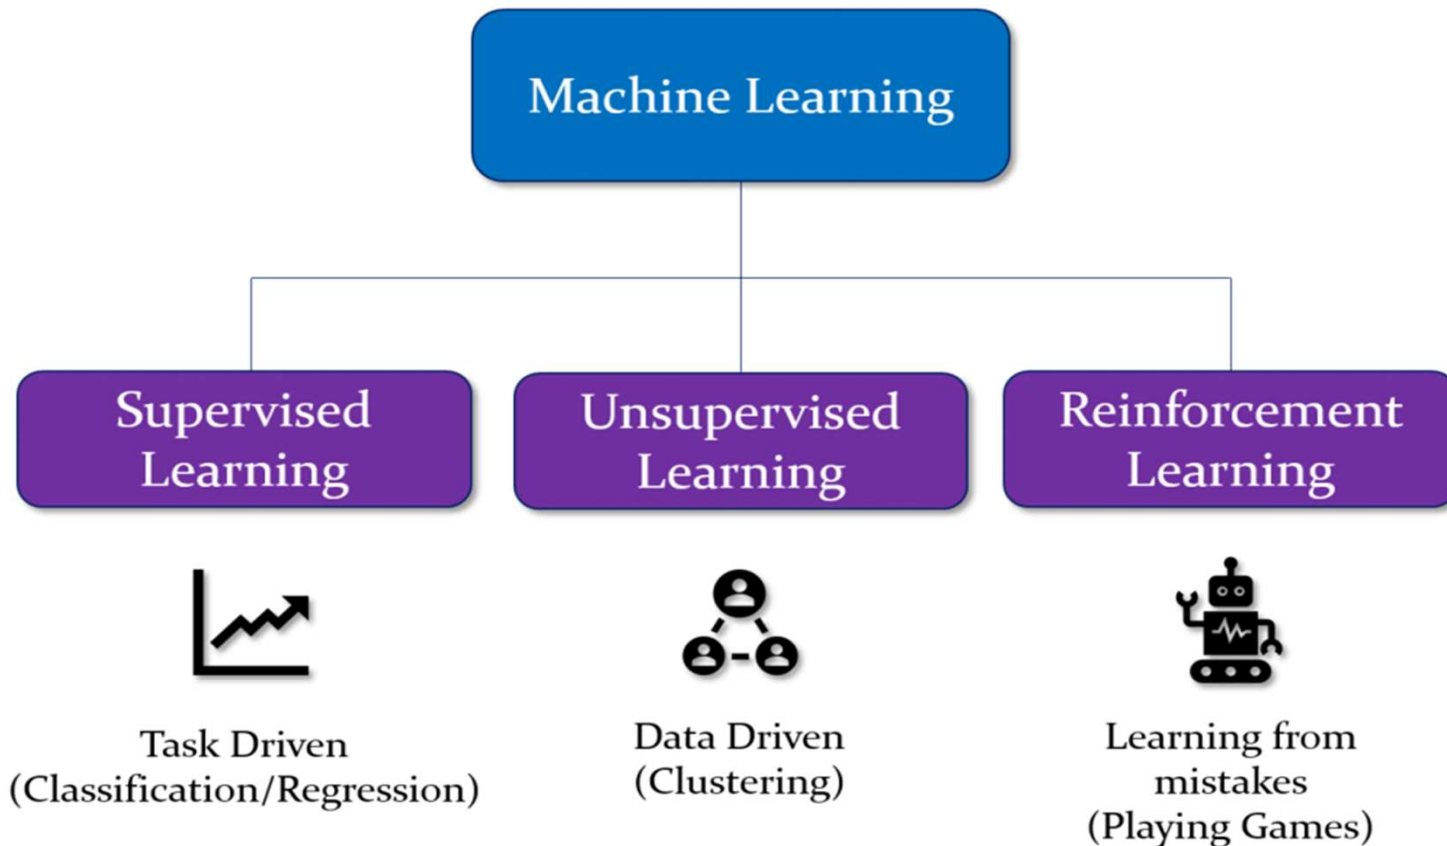

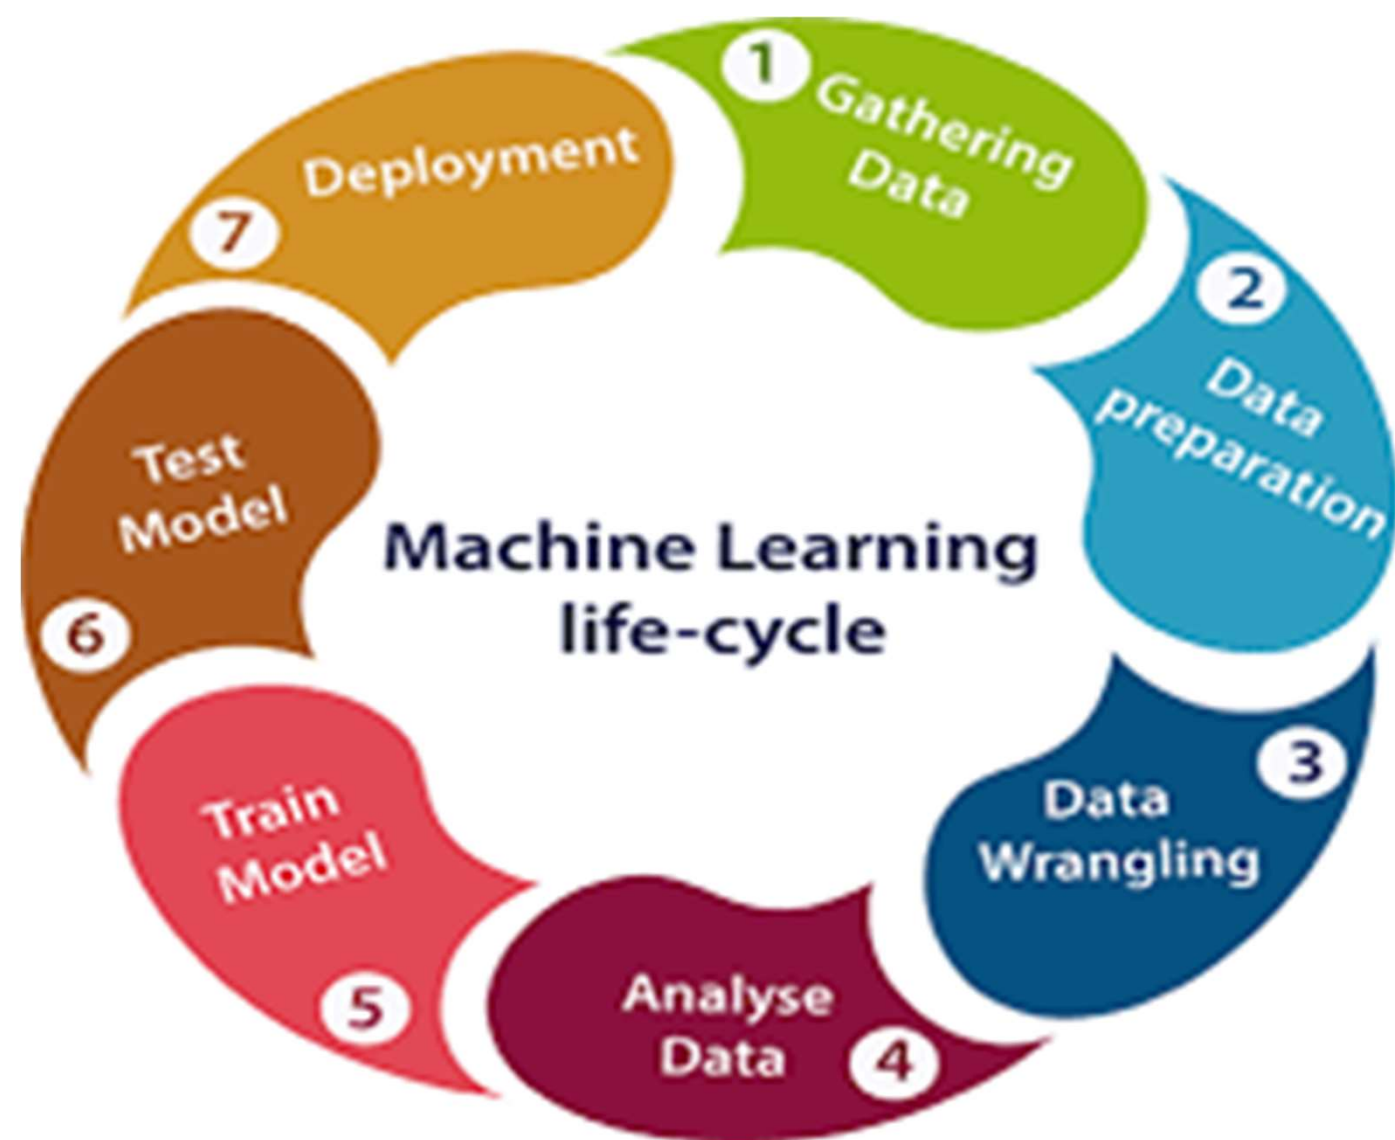

Work with Non Programmable task

Traditional system Vs Machine Learning Programming

Types of Machine Learning

Steps of model building
